Dear Randi,

It has been almost a year now since we moved up here permanently from Wellesley, Massachusetts and met with you. As I am certain you recall, we didn't really know any professional interior designers in the area but you were highly recommended by our builder. At the time, we were in the middle of building on an addition to our lake house. I remember asking you to turn our current cabin like house into a year round home. I wanted our place to be cozy and comfortable plus use some existing pieces but, at the same time, keep the look in the spirit of the character of our small lake. You smiled and said "I know exactly what you want". And somehow, even though we had just met, I felt like you did understand us. You listened so carefully, asked great questions, and got those creative juices of yours flowing. We never looked back and it has been such a fun project. The outcome is everything we had hoped for and more!

Now, in this long overdue note to you and your terrific team, I want to thank you for creating this beautiful environment for us. Doug and I are thrilled with the results. Our interior is just the right mix of old and new plus so cozy. We love spending time in our beautiful living areas and our incredible master bedroom. We do so appreciate your talent and your professionalism. We also appreciate all the extras you brought to the project ranging from haircut recommendations to exterior trim color selection to dog biscuits for our "boys". It was a pleasure working with you and all of the IBR staff. I look forward to the next project.

Please don't be a stranger to our home.

Fondly,
